DATE: August 13, 2026
RE: Mill Coulee Stream Bank Improvement Project – Bid Award and Funding Recommendation

Bids for the 2026 Mill Coulee Stream Bank Improvement Project were opened on July 30, 2026. Three bids were received for Contract #1 – Stream Improvements Construction.

The bids received were as follows:

- Bacon Concrete, LLC, Postville, Iowa – $141,500
- Wamsley Excavating & Quarry Products, LLC, Cassville, Wisconsin – $186,000
- Temperley Excavating, Inc., East Dubuque, Illinois – $212,450

Bacon Concrete, LLC submitted the low bid of $141,500, which is approximately 32% below the estimated construction budget of $210,000. Delta 3 Engineering has reviewed the bids and recommends awarding Contract #1 – Stream Improvements Construction to Bacon Concrete, LLC. The Alternate "A" – Culvert Replacement is not recommended for award at this time.

Based upon the bid results and the recommendation of Delta 3 Engineering, I recommend that the City award the Mill Coulee Stream Bank Improvement Project to Bacon Concrete, LLC in the amount of $141,500.

From a financial standpoint, I recommend that the City fund the project using available reserves from the City's ADM/Redemption Funds.

Given the availability of these reserve funds and the favorable construction bid, utilizing ADM/Redemption reserves is the most fiscally responsible approach. This allows the City to complete an important stream bank improvement project without incurring additional borrowing costs or placing the expense on the property tax levy.

Using existing reserves for this one-time capital improvement also preserves the City's ability to use annual operating revenues and future borrowing capacity for other planned capital projects and infrastructure needs.

I recommend that the Finance Committee recommend, and the Common Council approve:

1. Awarding Contract #1 – Stream Improvements Construction for the Mill Coulee Stream Bank Improvement Project to Bacon Concrete, LLC in the amount of $141,500; and
2. Authorizing the use of ADM/Redemption reserve funds to finance the project.

This approach allows the City to move forward with the needed improvements at a very favorable bid price while utilizing existing financial resources in a fiscally responsible manner.

Thank you,

Chad Abram
